

TECLINE

DIVING TORCH TECLINE STROBE-LED

INSTRUCTION MANUAL

Thank you for choosing the Tecline STROBE-LED diving torch.

If you have additional questions about the torch described in this manual please contact us by email: scubatech@scubatech.pl.

PURPOSE

The Tecline STROBE-LED dive light is designed for underwater use, both as a backup torch and for position marking.

USE / CHARGING THE BATTERY

Charging batteries

- Unscrew the flashlight head counterclockwise.
- Remove the discharged battery and recharge it using an external charger. Then insert it into the body following the polarity sticker indicating + / -. The battery's positive terminal should face the flashlight head.
- Screw the head back on clockwise until fully tightened, but do not use excessive force.

Turning On/Off

- To turn on the flashlight, rotate the magnetic ring at the base of the head to the right from the "OFF" position. Turning it back to "OFF" will switch the flashlight off.
- To activate the strobe function, rotate the ring to the left from the "OFF" position. To switch off the strobe, turn the ring back to "OFF".

SAFETY INFORMATION / RECOMMENDATIONS FOR THE BATTERY

WARNING – Strobe Mode:

Do not look directly at the flashing light – it may cause dizziness, disorientation, or, in sensitive individuals, even an epileptic seizure.

!) Do not leave the torch switched on without supervision.

!) Never unscrew the battery compartment cap while underwater. This will flood the battery chamber and may result in damage to both the torch and the batteries. Such damage is not covered by the warranty.

Do not take the torch underwater with low batteries. Do not mix charged and discharged batteries.

WARNING!

THIS TORCH IS DESIGNED TO OPERATE ONLY WITH Li-Ion 26650 BATTERIES . USING OTHER TYPES OF BATTERIES MAY DAMAGE THE TORCH AND SUCH DAMAGE IS NOT COVERED BY THE WARRANTY.

MAINTENANCE AND STORAGE

- The torch should be thoroughly rinsed in clean fresh water after each use.
- If the O-rings are too loose – they should be replaced.

DIVING TORCH TECLINE STROBE-LED

- O-rings should be lubricated very gently with silicone grease suitable for O-rings.
- All O-rings should be replaced every 12 months.
- The torch should be stored in a dry place at room temperature.

TECHNICAL DATA

Materials: T6061 aluminum with hard-anodized surface finish - housing, PC - front cap
Light source: high intensity LED chip; burning time: 50000 hrs
Light output: 3500 Lumen; white color; temperature 6000K - 6500K
Beam angle: 270 degrees
Maximum depth: 150m/450ft
Controlled by magnetic rotating ring
Functions: Strobe ON - OFF- Light ON
Burning time: 150min(Light ON) - 720min(Strobe)
Net Weight (g): 135g (excluding battery)
Power type: 1 x 26650 Li-ion rechargeable battery 18Wh.

Note: The above specifications were measured under laboratory conditions in accordance with ANSI/NEMA FL1 flashlight testing standards. Values are approximate and may vary between individual flashlights, battery types, or environmental conditions.

WARRANTY

The product is guaranteed for two years from the date of purchase and is only valid with proof of purchase from the Scubatech/Tecline shop. The guarantee does not cover:

- loss or damage caused by improper use of the torch (including use in chlorinated water without first protecting the torch),
- visual damage caused by intensive use of the torch (scratches on the outer shell),
- damage caused by excessive heat or chemical damage,
- overheating caused by using the torch on a surface for too long,
- damage caused by improper maintenance, storage or unauthorised repairs.

UTILISATION

- Do not throw used or unwanted electrical and electronic equipment into the rubbish bin. When you buy new electrical or electronic equipment in a shop, you can leave your used e-waste at the dealer, making sure, however, that it is of the same type and quantity as the purchased equipment.
- Segregate e-waste by putting it in designated containers.
- By disposing of your device correctly, you are making a contribution to the protection of the environment and human health. Incorrect disposal poses a threat to the environment and human health.
- You can obtain more information about recycling from your local council, city cleaning company.

CONFORMITY WITH EU DIRECTIVES

- EMC directive 2014/30/EU
- RoHS directive 2011/65/EU
- EU declaration of conformity - available upon request or at the importer's website.

DIVING TORCH TECLINE STROBE-LED

PURPOSE OF THE USED SYMBOLS / INDICATORS

- The CE mark confirms compliance with European Union requirements
- The RoHS mark confirms the absence of hazardous substances
- The symbol of the crossed-out rubbish bin indicates that electronic equipment should not be disposed of with the mixed waste.
